DATA SHEET

Part Number: **P68-100**
Description: **Phenolic Plain Core**

Dimensions:	inches (millimeters)	
Outside Diameter:	0.098 / 0.093	(2.49 / 2.36)
Length:	0.260 / 0.240	(6.60 / 6.10)

Material Characteristics:

Material Type:	Micrometals Mix-00
μ_i (reference)	1 (reference)
Temperature Stability	+0ppm/K typical
Finish:	None

Micrometals Iron Powder Cores comply with the EU Directives 2002/95/EC and 2003/11/EC. Any possible unintentional RoHS trace elements present are less than 100 ppm.
